Fusion Taupe, 3200x1550x20mm

Celebrating browns, beiges and neutrals, Fusion Taupe is a strongly-patterned surface that is available in a polished finish in slabs of 3200mm x 1550mm and in 20mm thickness. Its swirls and splodges create the impression of movement which is highly pleasing to the eye and acts as the perfect contrast to the flat surface of kitchen cabinetry.

Working with today's trend to bring the outside inside wherever possible, Fusion Taupe enhances the design of the kitchen by enriching the space with fawns, mushrooms and light browns. Fusion Taupe is highly adaptable with its different colour tones heightened by the backdrop against which it is placed.

Specification Notes
