**Ardenne, 3200x1550x20mm**

Silky-sleek, Ardenne features a luxe black base with grey flecks of varying sizes reminiscent of stars in the night sky. When paired with clever lighting, Ardenne comes alive: when the lights are out, Ardenne waits patiently in the background for its chance to shine. Ardenne is available in slab sizes of 3200mm x 1550mm, and 20mm thickness. The thin profile makes it an ideal fit for hyper-modern and contemporary kitchen styles where its rich depth of colour invites the user to engage, whether combined with darker colours for tonal correspondence or with lighter colours for stronger contrast.

**Specification Notes**

[Click here](#) for detailed information on Care & Maintenance for Santamargherita stone.
